An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Williams on October 17, 2006.

The application has been amended as follows:

1. Claims 6-11 are cancelled.
2. Claim 1, line 3, changed the phrase, "encoding a calreticulin" to "encoding the calreticulin".
3. Claim 3, line 2, changed the phrase, "encoding a calreticulin" to "encoding the calreticulin".
4. Claim 4, line 4, changed the phrase "a mouse calretiulin" to "the calreticulin".
5. Claim 4, line 4, after the word, "peptide," added the phrase, "as set forth in SEQ ID NO. 23.".
6. Claim 4, line 5, deleted the phrase, "said peptide having at least 80% homology to SEQ ID NO. 23;".
7. Claim 4, line 8, changed the phrase, "encoding a calreticulin" to "encoding the calreticulin".
8. Claim 14, line 2, changed the phrase, "a DNA sequence" to "the DNA sequence".

The drawings are objected to because Figure 15C is light and bands cannot be seen on the gel. Applicant is requested to resubmit Figure 15. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
